

We are aware that some people have found checking into Abderry using GuestHQ has been a bit of a hassle so we've decided to go with the NZ COVID Tracer app.

<https://www.health.govt.nz/our-work/diseases-and-conditions/covid-19-novel-coronavirus/covid-19-health-advice-general-public/contact-tracing-covid-19/nz-covid-tracer-app#download>

Using the NZ COVID Tracer app

The first time you open NZ COVID Tracer, you'll be asked to enter your email address and create a password. You'll then receive an email with a 6-digit code that will allow you to complete the registration process.

You can then visit the app dashboard to register your details, let us know where you're staying, invite friends and family to download the app, and register your interest in features that will be added to the app in future updates.

You're now ready to start using NZ COVID Tracer to create a digital diary of the locations you visit. Simply select the 'scan' option and point your camera at any COVID-19 QR code poster so the code fits within the target area on the display of your phone. A green tick will show up on the display when the QR code has been scanned successfully.

Hint: make sure to give NZ COVID Tracer permission to access to your camera when prompted.

Terms, Conditions and Safety Recommendations

I am not –

Suffering from concussion within past 4 weeks

Under Doctors orders not to ride

Showing Covid 19 or flu like symptoms

I will –

Abide by & use all Covid19 best practice & use hand sanitisers etc as provided & as per signage
